Countries Visited

Azerbaijan

Azerbaijan has an incredibly rich history as the country has suffered a multitude of invasions from north, south, east and west. It was a melting pot of different peoples and religions but became dominated by successive waves of Turkish (who came from Central Asia, not Turkey), Arabic and Persian invaders. The Islamic heritage is obvious and today it has a strong Muslim culture.

Georgia

Georgia is a mountainous country with spectacular Caucasus scenery, and warm generous people. It is a strongly Christian country and has some of the most historic Christian monuments on the planet. The age and condition of the churches and monasteries, many dating back to the Fifth Century, is staggering. Being such a small country it is possible to see and do a great deal in a short time and yet, because of its geographical and cultural isolation from the West, it is seldom visited by Western travellers.

Kyrgyzstan

Kyrgyzstan is a country surrounded by amazing scenery. The towering mountains and shimmering lakes are the perfect place for trekking and horse riding. Over 90% of the country is unspoilt countryside and Song Kul lake is just one of the loveliest spots in central Kyrgyzstan. Among animals found here are a diminishing number of wolves. All around the lake are lush pastures favoured by herders, who come here in summer with their animals.

Kyrgyzstan is a welcoming country, and the nationals like to welcome visitors and treat them with food. Influenced by the countries around them, traditional Kyrgyz cuisine is meat dominated. The national dish of Beshbarmak usually contains mutton and rituals are followed for the meal. Different people at the meal normally eat different parts, and it is up to the most honorable person at the table to decide this. This is normally the oldest person. Shashlik is a meat grilled over coals and is served mostly in restaurants but sometimes in the street, but it is always marinated for hours before hand, giving it a beautiful taste.

With a blend of Russian, Kazakh and Turkmen music, the folk music of Kyrgyzstan is created. The plucked stringed instrument of the Komuz is the national instrument and important part of the country's culture. Culture is important in Kyrgyzstan and the capital city is no different. Bishkek has an interesting history and it is said to have got its name from a local hero who fought for the independence of the country in the 18th century and is buried here.

What Kyrgyzstan lacks in settled history it makes up for in a wealth of nomadic traditions. What it lacks in historical architecture it more than makes up for in Central Asia's finest mountain "architecture" as Kyrgyzstan is a largely mountainous country. It is a mountain paradise surrounded by deserts, and the homeland of nomads whom Soviet power never quite tamed.

Turkey

Turkey is a rapidly modernising and western orientated secular state with a free enterprise economy. Historically it has its religious routes firmly entrenched in Islam, and the majority of Turks are Muslim. However, the religion does not dominate the country as it does in some of Turkey's neighbours. The Turks are friendly to visitors, the cuisine is a savoury surprise, and the cities are dotted with majestic old buildings. Turkey's topography ranges from Mediterranean coast to the high rugged mountains of Eastern Turkey. The country combines stunning scenery, immense history and wonderful beaches.

In the capital of Ankara lie many archaeological sites. Theatres, temples and Roman Baths all create an interest as people want to know about Turkey's illustrious history. Ankara is the capital but Istanbul is the life and soul of country. There are restaurants, galleries, bars and clubs that scatter across the city. It is full of life and there is always an activity available to take part in. Find the markets and you will probably find traditional Turkish food and music. With many ranges of Turkish delights and kebabs it might be difficult to pick just one, but the cuisine has so much more to offer. Try a Sigara borek. This is melted cheese wrapped in a light pastry.

In the heart of Cappadocia is the town of Goreme. Known as the Enchanted Valley, this is a fantastic region of cones, needles and columns fashioned by nature from the soft volcanic tuff rock. It is honeycombed with caves scooped out to make churches and dwellings that are known as fairy chimneys and castles. The most interesting are the rock chapels and frescoes of Goreme, the monastic complex of Zelve and the fairy chimneys of Avcilar. Nearby are the remains of underground cities, the most extensive of which housed up to 50,000 people at any one time.

Goats and Sheep roam about the lower mountainous areas of the country, whereas in the Coruh Valley the home of over 250,000 wild fowl. With quite a lot of these birds of prey, it makes them the largest collection of migrating birds in the world.

Turkmenistan

Turkmenistan has some of the remotest scenery on Earth. Most of the country is covered by the inhospitable Karakum Desert. The indigenous people are the Turkmen, who mainly live outside the urban centres. The cities and towns are occupied by other peoples of the region. Most Turkmen still live a nomadic or semi-nomadic way of life. Their existence revolves around carpet weaving. They are immensely hospitable people whose culture and way of life has altered little in hundreds of years. The route we take through the country will allow us to get off the main route and into the desert to meet the nomadic Turkmen in their traditional yurts.

In the capital of Ashgabat lies beautiful marble palaces and gleaming golden domes. It is a unique modern city that has been extensively rebuilt in the last ten years since independence. Its futuristic and outrageous public buildings are an extraordinary sight. Little is left of the original Russian Imperial city that was destroyed by a massive earthquake in the 1940s.

Relax with some traditional Turkmenistan music and hear how most people sing a-Capella or sometimes with the aid of lutes and dutars. The sounds are incredible and as the singers act as healers or magicians, the style of folk music is revealed.

The majority of Turkmen food isn't spiced but is flavoured by cottonseed oil to give it a distinct taste. Shashlyk is a skewered grilled meat and is often served in restaurants or on the streets of Turkmenistan. Plov is one of the main dishes in the country and it consists of portions of mutton carrots and rice all fried together. This dish is eaten everyday as well as been served on special occasions.

Uzbekistan

Uzbekistan contains many cultural treasures. This is the land of the great Khanates and Sultanates, the kingdoms that controlled the towns of the Silk Route, such as Khiva, Bukhara and Samarkand. This country is the Silk Route at its best.

The capital is Tashkent, and dating back thousands of years, it started life as a little oasis at the hills of the Golestan mountains. As it has come into the present day, it has brought many treasures with it. Explore the city and find statues, museums and art galleries.

Follow the Silk Road and venture into the city of Samarkand. Samarkand is the great sultanate of Timur. This is the romantic city of the silk route. This is the city of the great Registan Square, where beautiful Medressas are loaded down with ornate majolica and azure mosaics. This city has enough majesty and magnificence to satisfy even the most ardent of culture vultures.

Next along the silk route is Bukhara, it feels lived in and has a real feel of living history. This is the atmosphere of Central Asia before the Russian domination. The colours of the city are browns, but the buildings are spectacular, especially the Ark Fortress, the Ismail Samanid Mausoleum and the Kalyan Minaret (Death Tower). The third of the main UNESCO sites is Khiva and is the best preserved Khanate. Its long bloody history is fascinating. The walls that used to provide sanctuary for the travellers on the Silk Route are intact as is the old town inside. The old town is beautifully decorated in classic turquoise tiles.

Uzbekistan is covered mostly by the Kyzyl Kum desert and striking mountain ranges. These are home to some of the beautiful wildlife that roams through the country. Brown bears, deers and the rare snow leopard all can be seen, and it is a world away from the urban areas of the country.

The music in Uzbekistan is similar to Persian classical music. Especially the style of Shashmaqam. This traditional sound makes use of lutes drums and jingles to create poetic love songs. This sound adds to the endless reasons as to why Uzbekistan is an awe inspiring country to visit.

Istanbul

Istanbul is the only city in the world to straddle two continents, so it will come as no surprise that this vast metropolis has is home to a beguiling mix of different cultures and traditions, blending the influences of both east and west. The city has a rich and intriguing history, originally founded by Greek settlers over 2000 years ago, Istanbul originally went by the name of Byzantium, later renamed Constantinople by the Romans who made it the capital of their eastern empire. Today the city is the largest in Turkey, a bustling mega-city with a population of over 12 million people in total.

The old town is a good place to start your explorations. The Grand Bazaar is a paradise for souvenir hunters and you may well find yourself drinking tea with the shopkeepers whilst haggling over prices. Then there's the Topkapi Palace and Harem, Istanbul's iconic Blue Mosque and the incredible ancient church of Aya Sophia. The Archaeological Museum which contains the tomb of Alexander the Great is also worth a look. After all that sightseeing, take a stroll down to the waterfront and maybe take a boat ride up the Bosphorus, this is a great relaxing way to experience the city from a different angle, with excellent views of the minarets and towers that give the city its distinctive skyline. You might also like to visit an authentic Turkish bath, where attendants will pummel your body as though it was a lump of meat and walk over your back as a form of massage. Just around the corner from the baths is the ' pudding Shop', infamous

amongst travellers embarking on the hippie trail back in the 60's and 70's, a great spot to relax, recover and chat to other travellers at the end of the day.

Lake Tuz is the 3rd largest lake in Turkey, and the phrase "Tuz Golu" means "Salt Lake". In the summer there is up to 30cm of a salt layer on the dried lake, but as the winter months come in, it is dissolved by the waters of the lake that are fed from channels and streams around the area. The salt is important to the Central Anatolia Region, because it can be extracted and sold in local markets.

unique and surreal landscape. The area is riddled with caves, scooped out of the rock to house churches and dwellings that are known as fairy chimneys and castles. Perhaps the most interesting are the rock chapels and frescoes of Goreme, the monastic complex of Zelve and the fairy chimneys of Avclar. Nearby you can also see the remains of a number of underground cities, the most extensive of which housed up to 50,000 people at any one time. These cities could be shut up in the event of an invasion and the population kept safe below ground until the invaders departed.

More modern attractions include a local winery and the workshops of local craftsmen who produce skilled onyx carving and pottery. In Urgup, near Goreme, you can also enjoy a traditional Turkish bath, sip tea while playing backgammon with the local men, or enjoy a walk through the unique scenery. We can also arrange

Samarkand

In the 14th century the city of Samarkand was the capital of the great sultanate of Timur. Thanks to its central location along the Silk Route, the town originally grew prosperous as a crossroads between East and West, creating a melting pot of different cultures and traditions whose influences are still very much apparent event today. Samarkand is perhaps the most romantic and evocative of the Silk Road cities, and crowned by the decorative domes and minarets of the many beautiful buildings here it certainly looks the part. The must-see's include Registan Square, which feels like the centre-point of the city, home to a group of impressively decorated Madressas, Guri Amir and the Shah-i-Zinda mausoleum.

Tashkent

Tashkent was once the fourth largest city in the Soviet Union. Whilst the historic cities of Samarkand, Bukhara and Khiva still retain much of the atmosphere of the ancient Khanates, Tashkent is very definitely a Soviet city, because old Tashkent was largely destroyed by a series of earthquakes and Soviet planners. Having said that, it is still a great place to visit. The city has a clean, modern feel and there is some unusual contemporary architecture here, which makes it an interesting contrast to many other places along the Silk Road. The city markets (especially the Chorsu Bazaar) are well worth strolling around, you can get some excellent souvenirs here as there is a huge amount of Soviet ephemera on sale, ranging from entire Soviet stamp collections, old paintings of Lenin, through to Military uniforms. You should also try to plan a journey that involves a trip on the metro, so you can take in the impressive architecture and decoration of the Tashkent underground. Then after a busy day sightseeing, you might like to head out for a meal at one of the old Imperial Russian style nightclub/restaurants which often put on some unbelievably risqué cabaret.

Nearly 90% of people who live here are indigenous Uzbek's and the communities here are typically very welcoming and hospitable. A very fertile area, the land is highly cultivated and used to produce fruit and vegetables and cotton. Chong Kemin lies within the Tian Shan mountain range separating Kyrgyzstan and Kazakhstan. Their peaks reach above the legendary threshold of 7000 m elevation in its rugged run towards China.

This spectacular valley is famed for its natural beauty, abundant wildlife and rich, varied flora. This is the reason why Chong Kemin National Park was founded in 1977.

The valley offers several trekking possibilities from easy short walks along the Chong Kemin River to adventurous and tough hikes over 4000m passes, certainly not for the faint hearted. Recently white water rafting has become a popular activity for visitors in the area, However if it's a more relaxing experience you are after, exploring this stunning valley on horseback is a great alternative.

Bishkek is the relaxed capital of Kyrgyzstan with a pleasant laid-back atmosphere. The city centres around Ala-too Square, previously known as Lenin's Square under the previous Soviet regime. Lenin used to stand in his concrete overcoat in the middle of the square, proudly gesturing towards the mountains. For those interested in their Soviet memorabilia, a larger than life Frunze can also be found still sitting on a

bronze horse facing the train station, though his name plaque has been removed - and you can still visit the museum built over Frunze's birthplace. A pleasant place to watch the world go by is Dubovy (Oak) Park, where you'll find a few open air cafes, perfect spot to sit and have a drink and soak up the atmosphere. The century old oaks here and all along Freedom Avenue make Bishkek one of the greenest cities in Central Asia.

Important Notes

The routes, activities and places visited described in these trip notes are intentions and are meant as a rough guide only.

We intend following the planned route but exact night stops cannot be guaranteed. It sometimes happens that we decide to make a change to our basic planned itinerary. This may be for a variety of reasons - climatic, road or bureaucratic conditions may demand it. By their very nature overland itineraries need to be flexible and the regions that we are travelling through are often unpredictable. We run adventure journeys in off the beaten track areas, often in areas without western infrastructure. You should expect that some these areas do not adhere to western safety standards.

Visa note

Visas for this trip can take many weeks to be issued and it can be a lengthy process. Please ensure that you book early to avoid disappointment. Central Asia visa support letters are included in the trip price. NB: These are not the actual visas but necessary supporting documents, visa costs are a separate to the trip price.

Please note that from time to time some visa applications are rejected by the Ministry of Internal Affairs in Turkmenistan and /or Uzbekistan or incorrect dates given for travel. If this happens, Dragoman will contact you as soon as it is known and we will help you arrange alternative travel plans. Unfortunately Dragoman Overseas Travel cannot be held responsible if your visa application is refused.

Weather Note

We will be travelling through high remote mountains and the itinerary may have to vary somewhat due to weather or road conditions. When it is too cold to visit Song Kol Lake or camp (May/October/November) we will run an alternative itinerary which may include a yurt stay on the southern shore of Lake Issyk-Kul, a night at a homestay or a night at a hot spring development known as Altyn Arashan.

We will need to remain flexible with these itineraries as temperatures can vary.

Kyrgyzstan

The climate of this mountainous country can vary significantly depending on the time of year and the region. There are four main climatic zones in Kyrgyzstan:

1. The valley zone (from 500-1,000m) is characterized by hot summer temperature, up to 28C (82F) and moderate cool winters. It rarely snows in these areas. Summer temperature generally ranges between 20C (68F) and 25C (77F), winter temperature falls between -4C to -7C (+19 to +25F).
2. The middle mountain zone (from 1,000-2,200m) enjoys a typical moderate climate with warm summer and cold steady snow during the winter. Average summer temperature in July is 18C (64F); average winter temperature in January is around -7C (19F).
3. The high mountainous zone (2,200-3,500m). Summer is cool while winter is cold with a lot of snow. July temperature is about 15C (59F). Winter is long (November-March) with January temperature around -10C (14F). In the highest regions of this zone the period when water is not frozen is only around 3-4 months.
4. Nival zone (from 3,500m and higher) is characterized by a very severe, cold climate. It is a zone of snows, rocks and glaciers. Even in the lower region of this zone the average July temperature does not exceed 7C (45F) and in January temperatures drop to -20C (-4F).

The climate in China, Kazakhstan, Uzbekistan, Iran and Turkey also can vary significantly depending on the time of Year. We recommend you check local average weather conditions for each country you will be travelling to in order to properly prepare for your trip.

Physical Preparation

Physical preparation for Asia Itineraries

In Asia you will need to be healthy enough to cope with extremes of climates from the hot deserts through to the colds of the high mountains. Overland travelling can be demanding - long, rough travel days, dusty conditions can be challenging to some. You will need to be fit enough to help every day with the camp chores (cooking, washing up, general camp set up) as well as putting up and taking down your own tent. There are some long driving days and some early morning starts. The step up into the overland vehicle, while not overly high can become tiring and you need to judge yourself to be physically fit enough to haul yourself up and down the step at least 8-10 times a day. By and large our Asia trips have a good range of hotel accommodation mixed up with camping so that life is not too rough.

Altitude

Please note that this trip spends time above 2800 metres/9200 feet where it is possible for travellers to experience some adverse effects on your health due to the altitude, potentially including Acute Mountain Sickness (AMS), High Altitude Cerebral Edema (HACE) and High Altitude Pulmonary Edema (HAPE).

Because of this it is very important that you make yourself aware of the cause and effects of travelling at altitude and monitor your health during this trip.

For further information please click here to download our AMS information sheet or check out the following website www.high-altitude-medicine.com

Your leader will also hand you a copy of the AMS information sheet during your trip as well as holding a short meeting prior to travelling to altitudes above 2800m/9200ft for the first time.

If you are starting your trip in a destination above 2800m/9200ft we strongly advise reading this information prior to arrival.

Personal Spending

Based on the range that previous travellers have spent on this trip, we recommend you allow between a minimum of US\$15 and a maximum of US\$30 per day for Central Asia, China and Burma and between a minimum of US\$10 and a maximum of US\$20 for India, Nepal and South East Asia.

This will cover individual expenses such as drinks, meals whilst out and also when staying in hotels, souvenirs, tips and personal permits.

Please note: For trips in Southern India that occur over Christmas and New Year please allow approximately \$130USD extra on the kitty for seasonal increases in accommodation costs

What else you need to know

Currencies & Cash

It is not really worth trying to buy local currencies before you travel. Do also bear in mind that many countries have strict regulations about the amount of their own local currency you are allowed to import - if you are found with amounts in excess of the allowed amounts, it may well be confiscated!

For trips in Turkey, South East Asia, India and Nepal a sensible mix of cash and ATM cards is best. However, most of our past passengers have said they wished they had been told to bring more cash. Apart from the convenience of being able to change money in many more places, you will sometimes get a much better exchange rate for cash.

For trips in Central Asia, China, Burma and Mongolia please refer to the money exchange notes.

You should take a mixture of denomination notes. Banks and moneychangers in most countries will now only accept bills with a metallic strip running top to bottom of the bill and which are dated from 2003 or later. You should not take worn or damaged notes, or any that have been written on. Cash machines are readily available in most areas but are not always reliable therefore we recommend that you do not rely on them as your only source of cash. Credit cards such as Visa, MasterCard and American Express are the most commonly accepted, but be prepared for very high commission charges. Please do not rely on cards for daily use, as they are not always accepted outside of larger towns and cities. Please bring a mixture of small and large denominations as in more remote areas it can be hard to change amounts over \$50.

Money Exchange

Turkmenistan

The official currency of Turkmenistan is the manat (M). It's set at a fixed government exchange rate, but traded for far less on the black market. As ATM's are virtually non-existent, you're best to exchange foreign currency once inside the country. Don't bother with travellers cheques - they're not accepted anywhere. The black market is easy and accessible to foreigners, and the only place you'll get a realistic exchange rate.

Uzbekistan

The official currency in Uzbekistan is the Uzbekistan Som (UZS) this can only be obtained in Uzbekistan. Conversion of UZS back into other foreign currencies may prove difficult.

Banks are rarely able to exchange foreign currency so you should ask the advice of your hotel or leader for where to change money. There are also many private money changers in Uzbekistan but if you choose to use them you must be sure to check the rate and your change carefully.

Major credit cards are rarely accepted in shops and restaurants even in bigger cities. Some banks in Tashkent will allow cash advances against a credit card but cash withdrawals are subject to a 5% or more service charges.

In Tashkent you may be able to find ATMs that accept international cards and use them to withdraw local currency; however these should not be relied on as your sole financial source. Some souvenir sellers and tourist restaurants may accept USD or EUR as payment but all other purchases in Uzbekistan must be made in local currency.

Please note that you must declare ALL currency (including travellers cheques) on entry to and exit Uzbekistan. Failure to do so accurately, or exiting the country with more currency than when you entered may result in delays, fines or the additional sums being confiscated.

Pre and post trip accommodation and connecting flights

At Dragoman we believe you should make the most of the places you visit, so if you would like to see more of your joining or finishing point cities, why not book additional accommodation to extend your stay. Dragoman can take away the hassle of time zones and language barriers by making the booking for you. This accommodation is only available at the joining or finishing city of your trip, immediately before or after the trip you are travelling on.

While Dragoman is happy to assist with booking your pre and post trip accommodation, it is important that you understand you may be able to book your own room at a cheaper rate directly through the hotel or on the internet.

Our additional accommodation prices are based on the hotel's rate plus an administration fee. Please note our rates do not reflect last minute walk in rates or internet specials.

We can also book arrival airport transfers for you as long as we have your flight arrival details. These are normally payable in cash upon arrival, however we do have pre paid transfers in a few destinations.

Please contact our reservations team for details of the accommodation and transfers that we can offer as not all hotels offer this service.

Accommodation on tour

Dragoman overland trips are designed for shared accommodation, whether camping or staying in hotels and therefore do not involve a single supplement. Single travellers will share with people of the same sex for the duration of the trip, in accommodation ranging from twin to multi-share. The type and variety of accommodation is determined by conditions on each of our routes. The campsites will range from rather basic to those with excellent facilities, including swimming pools, restaurants and bars. In some cases it may also be possible to upgrade locally to bungalows, lodges or even tree-houses. One of the highlights of overlanding is that in more remote areas we will wild camp. This allows us to get far away from the tourist crowds to some beautiful, secluded spots. We will also arrange as many village or local homestays as possible, allowing us to get close to indigenous populations and ensures our money stays within local communities.

Group size?

The maximum group size we take on our overland journeys ranges from 19 to 22 depending on the geographical location, however the average number of passengers is more likely to be around 16.

Please note that there is an overlap of 2 trips in Zanzibar. This means a group starting a trip in Nairobi for example will visit Zanzibar at the same time as groups starting their trips in Dar es Salaam. In practical terms this means there could be up to 44 group members in Zanzibar at the same time.

Who travels with Dragoman?

Our passengers come from around the world and are always an interesting mix of nationalities and ages. On average there is a pretty even split, males to females and between solo travellers, couples and small groups of friends. We believe that overlanding should be open to as many people as possible and so although we have a minimum age limit of 18, as long as you are fit, healthy and passionate about travel, we are happy to take you, whatever your age is. One of the beauties of group travel is the camaraderie and friendships that are formed along the way and as well as the variety of people that you will meet.

Our Community

At any time before or after you book you can join our community - Dragoland. This is a great place to ask questions before you travel and catch up with your fellow travellers once your trip has finished. You can share photos, videos and stories You can also download a selection of free travel apps. See the home page to sign in, it's free and easy.

We also have a Facebook page where travellers regularly swap info with each other - you can [join here](#)

Our crew and guides

Our crew are passionate about travel and always up for adventure. It takes someone special to become a Dragoman leader. Our crew undergo the most intensive training program of all overland companies, spending 10 weeks learning the ropes at our base in Suffolk, UK and then up to six months on the road as a trainee. On all Dragoman overlanding trips two western crew who are responsible for the group and the overall organisation will accompany you. While not being guides in the traditional sense you can expect them to have a broad knowledge of the places visited and to offer suggestions of things to do and see. In East and Southern Africa we will also have an African camp master/cook who is in charge of running the camp and organising all of the meals. Their knowledge of the local produce makes shopping at the markets great fun and you will learn how to prepare and cook some unusual dishes. In the rest of Africa, South America and the majority of Central Asia and China we use local guides who may stay with us for just a few hours or will actually travel with us for some or all of the journey. In these cases they become a third crew member and are able to offer their local knowledge as well as a real insight into the lives of the local people.

(If travelling in East & Southern Africa, also please see the note about our code-share crew)

Your tour leader has a duty of care to all of their passengers and therefore they have the authority to ask passengers to leave the trip if they require medical assistance, are behaving in an anti-social manner or refuse to comply with local laws and customs. In all matters relating to the trip, the leader's decision will be final and we appreciate your respect of this.

Medical conditions

We ask all of our passengers to declare any pre-existing medical conditions and in some cases you will be asked to complete one of our medical questionnaires. For trips that travel to areas of high altitude we also require all passengers to complete an altitude questionnaire. The ratings for each trip are a good indication of how challenging they are and in some cases passengers should be prepared for some long driving days and possible limited facilities. We are always happy to give extra advice if you have additional concerns.

Vaccinations

Recommended vaccinations and other health protection measures vary according to region and recent bulletins issued by health authorities. It is essential to get the latest advice on the region(s) you are planning to travel in. It is essential that you check with either your doctor or a travel clinic in good time before you travel.

In the UK we have been working with Nomad Travel for many years and their website has comprehensive, up to date vaccination and health information. Dragoman customers will receive a 10% discount off all vaccinations given at [Nomad Travel clinics](#).

A good source of up to date information is the World Health Organisation - <http://www.who.int/en/>

Malaria

Get expert advice before travelling about types of malaria pills and take them as instructed. Recommended types do change from time to time and from area to area. Consult your vaccination centre for the most up-to-date requirements

The mosquito usually bites between the hours of dusk and dawn and so covering up by wear long-legged and long-sleeved clothing, preferably light coloured and buttoned at the wrists can help. Do not sleep without closing windows, tent doors or, if sleeping out, use a mosquito net. Wear repellent applied directly to the skin or soaked into clothing.

Treating clothes and mosquito nets with a Permethrin solution provides significant protection. It should be available at most travel stores. Mosquito coils are useful on still nights, in hotel rooms but cannot be used inside the tents.

Meals and group participation

On an overland journey you are more than just a passenger, you're part of the crew, pitching in to set up camp, shop for food, cook and generally help out. We operate a rota system, dividing the group into smaller units of 5 or 6 people, so that these duties are shared equally amongst the group. These jobs will include things like collecting water and firewood, loading the back locker, supervising the kitty and food stores etc. While camping on overland journeys, all meals will be included in the kitty and this means that you will be working as a group to prepare meals and cook for your group. (On trips south of Nairobi we have a cook on board the truck, however you will still be required to help prepare meals). If you have any dietary requirements please tell us at the time of booking and also remind your crew at your welcome meeting. A typical camp breakfast might be toast with spreads, cereal and something hot such as eggs or pancakes as well as tea and coffee. Lunch is almost always a sandwich heaped high with healthy salad and assorted fillings, with fruit to follow. Dinner might be a BBQ, risotto, pasta dish and there is always the chance to try some local cooking. Generally our passengers find the more they put into a trip, the more they benefit from it.

Responsible tourism & code of conduct

Dragoman is committed to ensuring that we have a positive impact on local communities and that we implement policies to minimise any negative impact on the local environment. We are dedicated to making sure that we adopt a responsible attitude to the areas through which we travel and believe that our trips should benefit the local people and their environment. Dragoman recognises that we are guests of local communities and strive to make these communities our partners, so that they benefit directly from our visit.

You can find full details of Dragoman's responsible tourism policy linked from the home page. All passengers are required to obey all laws of the countries through which we pass. This particularly applies to the smuggling of contraband and possession of narcotic drugs, firearms, antiquities and ivory. Any passenger found contravening such laws or customs may be required to leave the trip immediately with no refund of the trip price.

Overland travel and security

One of the real advantages of overland travel is that the vehicle provides a very real level of security when travelling. There is no doubt that a properly equipped overland vehicle, with safes, fully lockable doors and windows is an obvious advantage when travelling in much of the world. We recommend the use of a neck wallet or money belt whilst travelling for the safe-keeping of your passport, air tickets, cash and other valuable items (although most of these can be locked in the safe whilst you are on the trip) and advise passengers to leave any valuable jewellery, watches etc at home. Generally speaking, you will not be travelling on local public transport and will have the added security of travelling in a group with experienced crew on hand to offer advice.

Please note: Any personal effects that are left on the truck, even if they are stored in the safe, are left at your own risk and Dragoman cannot be held responsible for any damage or theft that may occur.

The safety of our passengers, leaders and operators is a major priority of Dragoman. With this in mind we monitor world events very closely. By the very nature of the adventure travel that we take, there are risks and hazards that are inherent in our itineraries. Dragoman makes operational decisions based on informed advice from a number of sources:

The British Foreign and Commonwealth Office travel advice

Reports from other travel companies and local suppliers

Leaders reports from off the road

Local contacts we have built up over 29 years of experience

Many national governments provide a regularly updated advice service on safety issues involved with international travel. You should always make yourself aware of the travel advice before you book and again before you travel. Below are links to some of the websites

Dragoman has comprehensive passenger liability protection and tour operator insurance. These policies have total indemnities of £3,000,000 and £10,000,000 respectively. This is in addition to local vehicle insurance and your personal travel insurance.

Emergency contact

We have a dedicated 24 hour telephone number which should only be used once you have left the UK and in the event of a real emergency. Should you need to call the number, we will do what we can to help but please bear in mind that real progress or action may not be possible until normal office hours.

If your flight is delayed or cancelled, please let us know and then make your way to the joining hotel as instructed in these trip notes. If you cannot get through leave a message and a contact number as these will be regularly checked and the crew informed if necessary.

Emergency Number: +44 (0) 7985106564.

Insurance

It is a condition of booking that you have comprehensive travel insurance. Without evidence of valid travel insurance you will not be allowed to start the trip.

Whatever policy you choose, you must ensure that it is designed for adventure/overland travel. As such it must cover you for adventure activities such as white water rafting, trekking, horse-riding and that the 24 Hour Emergency Assistance Company must be experienced in handling situations in developing countries - for example they have the ability to arrange repatriation from remote areas such as the Sahara or if you were trekking in the Andes. Please double check if you have annual travel and/or credit card policies to ensure they have the cover you require, as many of these policies are not able to cope with adventure travel to remote areas. We recommend that any policy has the following minimum levels of cover: Medical (incl. repatriation) £5,000,000 Personal Liability £5,000,000 Cancellation and Curtailment £5,000 Loss of Baggage, personal effects, money and other inclusions are down to personal choice.

Issues on the trip

While we always endeavour to provide the best possible holiday experience, due to the nature of travel and the areas we visit sometimes things can and do go wrong. Should any issue occur while you are on your trip it is imperative that you discuss this with your group leader or our local partner straight away so that they can do their best to rectify the problem and save any potential negative impact on the rest of your trip.

We recognise that there may be times when your group leader may not be able to resolve a situation to your satisfaction. If this is the case please contact our customer relations department on customer_relations@dragoman.co.uk. You may also choose to provide details in your feedback questionnaire which we

ask you to complete at the end of your trip but we do ask you to be aware that it is very difficult for us to provide any practical help after the trip is complete.

Passports

Check that your passport will still be valid for 6 months after the end of the trip - this is important as some countries WILL refuse entry to anyone whose passport is due to expire. A temporary or "visitor's" passport is not valid on our trips. You will need to provide us with your passport details prior to departing for your trip. If you change your passport please remember to inform us.

Luggage & Kit List

Although you will not have to carry your main bag long distances you will need to help load and unload them onto the truck. For this reason we recommend that you use a backpack or soft bag rather than a heavy suitcase. During your trip your main luggage will be kept in the back locker so you will also need a small daypack. This can be used to carry your camera, water bottle and other personal effects for daily use.

The size of baggage that can be brought on this tour is limited by the locker space on the truck. Different trucks have different-sized lockers however to be safe we recommend that your bag be no larger than 66cm deep, 30cm wide, and 30cm high. The weight limit for luggage on all trucks is maximum 20kg. Backpacks should not have an external frame unless it can be easily removed and stored separately to avoid damaging other people's luggage.

Your clothes and equipment should be appropriate for the conditions you are travelling in. On overland trips Dragoman will provide all camping equipment apart from sleeping bags and ground mats (except on routes between Nairobi and Cape Town where ground mats are provided).

The clothes and equipment should be appropriate for the conditions you are travelling in, which will vary depending on which part of the world you're heading to. On overland trips Dragoman will provide all camping equipment apart from sleeping bags and ground mats*, so you'll need to bring those with you. Think about the climate and altitude of the areas you'll be travelling to, there's nothing worse than being cold at night so it's worth investing in a decent sleeping bag if it's likely to get cold. And remember even when it's warm during the day, it can often get cold at night, particularly in desert regions.

**Ground mats are provided on our non "in-depth" overland trips that run in South and East Africa, between Nairobi and Cape Town.*

For a general idea of what you need this list provides a guide:

- Sleeping bag - Check the expected climate en route. Nights in desert and mountain regions can be very cold in winter months
- Mattress or compressed foam
- A day pack is useful for short hikes in the countryside, wandering around cities, etc and also for keeping inside the vehicle for items used during the day
- 2 sets of comfortable travelling clothes (light, easily washable cotton clothes are best)
- 1 set of casual but smart clothes for evenings out. Women should bring a skirt that covers their knees and a scarf for visiting places of worship
- 2 pairs of shorts
- Sun hat or warm hat if trekking
- 1 pair of sunglasses
- Warm sweater/fleeces
- 1 waterproof jacket with hood
- 1 pair of comfortable walking shoes/boots (or ankle height canvas jungle boots)
- 1 pair of sandals or flip-flops
- Underwear and socks (thermals are also a good idea if you are travelling to altitude or to the desert as it can get very cold at night)
- Swimwear
- 2 small towels
- Washing kit, including a small mirror
- Clothes washing detergent, small scrubbing brush & washing line (just a length of cord)
- Head torch/flashlight with spare batteries & bulbs (only the 3 standard sizes of round 1.5v batteries are widely available en route)
- Passport photos (average of 2 per country for which visas will be applied for en route)
- Good water bottle at least 1 litre
- A pouch or money belt worn inside your clothing, or unobtrusive pocket sewn into the inside of a pair of loose fitting trousers, is a must.
- Alarm clock
- Pocket calculator (useful when exchanging money)

- Writing materials & notebook/diary
- Multi purpose knife
- Cotton sheet sleeping bag (or sheet folded and sewn up on 2 sides). It will help keep your sleeping bag clean, and can be used on its own on warm nights.
- Mosquito net - The tents supplied by us have mosquito netting and you will only need a net if you think you will sleep out under the stars a lot of the time.
- "Wet Ones" (moistened tissues) and hand gel
- Toilet paper - this can be purchased almost everywhere en-route but one roll is worth packing
- Assorted sized plastic bags - protects clothing and equipment from dust and damp

For a comprehensive kit lists take a look at the Dragoman kit list that Nomad Travel have created. Dragoman customers will receive a 10% discount on all equipment purchased either online or in store. Click to see the kit lists www.nomadtravel.co.uk/kitlist/overlanders-kit-list

Water

The sale of bottled water contributes to an enormous environmental problem around the world. In addition to the water in bottles, the production of a 1 litre plastic bottle takes 2 liters of water and 200ml of oil. A large proportion end up in limited landfill or discarded in waterways and natural environments.

Please avoid the purchase of bottled water by using the chemically sterilized water stored in the purpose built storage tank or in water jerry cans in your Overland vehicle. You are free to refill your bottle as many times a day as you like. You are helping the environment and your hip pocket!

Personal medical kit

All of our trucks have a fully stocked medical kit onboard for use in emergency situations only. Therefore in addition to this we recommend that you purchase your own personal medical kit. In the UK we have teamed up with Nomad Travel Stores and Clinics to produce the Dragoman Travel Medical Kit. It has been designed in conjunction with the truck kits and contains everything you would need for any minor accidents. For more details please visit their website:

nomadtravel.co.uk/catalog/view/dragoman-medical-kit

Electrical equipment

Your vehicle will be equipped with a 12 volt socket so to charge your iPod, MP3 player, camera, laptop and mobile phone you will need a DC 12 volt adapter - the type that can be used from a cigarette lighter in your car. Please be aware that only one piece of equipment can be charged at a time and it will not be allowed if there is a risk of running the vehicle's batteries low. Batteries may also be recharged from hotel room wall sockets and the majority of the campsites we stay at have electricity points so please bring along your normal charging adapters as well. You will need to ensure that you have the correct country adaptor for your specific charger.

The kitty

The Kitty is a group fund paid separately from the trip price at the start of your trip which covers all things that the whole group does, such as:

- Hotel accommodation and campsite fees
- Meals whilst camping (not in hotels)
- Activities listed as included (e.g. National Park entrances, excursions and local guides).

It is an amount that each passenger puts into a central fund and is monitored by the Dragoman crew. It's payable in full at the start of your trip, and in instalments at the start of each individual trip on combination trips

The kitty system is very unique to over landing as it allows us to have flexibility on the road. You can see exactly how your money is being spent and ensure that you are getting the best value by buying locally.

The kitty advertised in the brochure is an estimate at the time of printing. Local inflation and costs vary throughout the year and so we review kitties on a monthly basis. Once you book your trip it is very important that you check our website on a regular basis and just before departure for any changes to the kitty amount.

Your kitty can be paid in a mixture of US Dollar cash and local currency and most of our travellers choose to bring a cash passport with them for withdrawing local currency (you can visit www.cashpassport.com for further information on these). This is a very secure way of carrying your money whilst travelling. You treat them exactly like an ATM card and draw out local currency from an ATM to give to your leader within each country.

Travellers cheques have become increasingly difficult to change around the world with passengers and our leaders experiencing huge frustration and numerous hours spent trying to find a bank which will change travellers cheques. For this reason we no longer accept them on our trips.

Continuing your trip

Having an amazing trip and met a great group of people? Having too much fun to go home yet? If on your trip you decide you would like to continue, then why not speak to your trip leader who can advise you of the cost and availability of continuing your journey.

Contingency emergency fund

Sometimes, civil or political unrest, or reasons beyond Dragoman's control (e.g. a natural disaster), can mean that an itinerary is disrupted and we have to make a contingency plan. This may involve hiring alternate transport or even the whole group flying over an area. Although Dragoman will help organise travel arrangements, in circumstances outside Dragoman's control you should be prepared to contribute towards the costs and therefore we ask you to bring along a 'Contingency Fund' of USD400. In almost all cases trips run smoothly and this fund is therefore never used. We also recommend that you take along an internationally recognised credit or charge card with a decent limit in case of emergencies, such as medical treatment en route, or even the need to be repatriated; though these occurrences are rare. Remember that travel insurance policies usually only refund you for expenses after you have already paid out.

Tipping

Tipping is entirely voluntary. The Dragoman crew may be travelling with you for many weeks and usually they become good friends with most members of the group. It is sometimes easy to forget that they do work hard to ensure that you do have a great trip. If you feel you would like to tip them, they certainly would appreciate it. On a number of our trips, we also use a local guide as well as our own Dragoman crew. These guides live and travel with you through their home country and it is usual to tip them when they leave. We recommend USD10 to USD15 per person.

These trip notes have been compiled to help you prepare for your journey, once you have booked. They include the full itinerary and dates, information and kit lists, meeting hotels, insurance, vaccinations, visas, and other information that will help you get ready for your trip.

Please ensure you have an up to date version of these Trip Notes
