Your itinerary may include easy-paced day walks, bike rides, and other activities that are not too strenuous.

Lifestyle Challenge: ● ● ● ● ○

This is a fairly challenging trip; you may well be travelling at high altitudes, across deserts or through cold and windy or hot and steamy areas. The terrain and roads may be rough and the facilities can be very basic or non-existent. There may be some long drive days followed by wild camps, and physically and mentally it can be tough, but there will be some rest days and time to relax as well.

DAILY ITINERARY

Day 1 - Freetown (1st December 2020)

Border information: if you are joining in Freetown, you will most likely enter Sierra Leone at Freetown Lungi International Airport (IATA code: FNA).

There will be an important group meeting at 10:00am at the joining hotel - please look out at the hotel reception for a note from your leader with more details about this important meeting. Your leader will collect your kitty and check your passport, visas, and insurance details at this meeting.

The afternoon will be free to explore Freetown and it's surroundings.

Please note that many of the options listed below will only be possible for those with extra time in Freetown before the start of your trip with us - please contact the Sales team if you would like to book pre-tour accommodation with us to have extra time exploring Freetown.

The fastest and most reliable way to Freetown from the airport is by water-taxi, as Lungi is across a bay from the city. The departure times for the water-taxis are linked to each flight in and out of the airport, so there will be transport available for you when you land. Exit the airport and walk to the right, and you'll see the water-taxi office at the end - you'll have to buy your ticket there for USD40 or EUR35, and check in your large bags. You'll take a minibus for 15 minutes, then the water-taxi for 30 minutes. The boat lands at the jetty, where you hand in your luggage ticket to get your large bags back.

The jetty is in the Aberdeen district of Freetown, only a 200m walk from our hotel. Just walk up the hill to the main road - the Raza Guesthouse is slightly further down and on the other side of the road.

Accommodation: Raza Guesthouse

Day 2 - Freetown Peninsula (2nd December 2020)

Meals: Breakfast, Lunch, Dinner

Today we leave Freetown for the stunning beaches of Freetown Peninsular, where we will spend 3 nights.

Day 3 - Freetown Peninsula (3rd December 2020)

We will have 2 full days for optional activities on the wonderful beaches - we could go fishing, take a boat to explore the Banana Islands, get to know the local communities, and of course relax on the beautiful beaches!

Our final day on this beautiful beach we make the most of this time to relax before the journey continues.

This list is designed to be a helpful guide as to what is commonly available in each location, and is neither an exhaustive list, a guarantee that the activity is available, or an endorsement or recommendation. IMPORTANT NOTES

OVERLANDING LIFESTYLE

Dragoman was founded in 1981, and has had many years of experience of leading overland trips across 4 continents. Overlanding is all about sharing a great travelling experience with like-minded people. On your trip you'll travel in one of Dragoman's purpose-built iconic expedition vehicles on an off-the-beaten-track adventure along rugged roads, experiencing the sights, sounds and smells of the world up-close. Your journey will be overland, sometimes across vast distances, so some long days spent driving are inevitable - but these will be interspersed with breaks of a day or two at a destination or activity.

On an overland journey, you are more than just a passenger and everyone gets involved setting up camp - we supply the tent but it's up to you to pitch it! As part of your trip, you will be assigned a truck job which could be collecting firewood or water, luggage loading, organising food, stores, etc. Like all great adventures, the more you put in the more you'll get out! For more details of how an overlanding trip works, please see the Essential Information document.

SAFETY STANDARDS

We run adventure journeys in off the beaten track areas, which often have poor infrastructure. You should expect that some of these areas do not adhere to 'Western' safety standards. For more information, please see the Essential Information document

MEDICAL ASSISTANCE IN REMOTE AREAS

We will be travelling to areas in remote locations where medical assistance will not be available, and communications may be sparse. We do not carry satellite phones on our regular trips. Therefore, if you have a medical condition such as a heart condition that would put you at risk, we would suggest that this is not the trip for you. Also, please be aware that should an emergency occur, there is likely to be a considerable delay in accessing medical care, and by joining our trip you accept this risk.

VISAS, HEALTH, INSURANCE & MONEY

Before you travel there are vital things to consider such as:

- Any visas needed for your trip
- Any vaccinations needed (please consult your GP or travel clinic)
- Organising your local payment (the kitty)
- Buying travel insurance (insurance is compulsory to be allowed to join our trips)

For more information on these topics, please see the Essential Information Document.

CÔTE D'IVOIRE NOTES

CÔTE D'IVOIRE NOTE

This trip travels to areas of Côte d'Ivoire bordering Liberia, where there has been recent political tension.

The British Foreign & Commonwealth Office (FCO) currently advises against all but essential travel to parts of Côte d'Ivoire, including the western region of Dix-Huit Montagnes, through which our trips in the country pass when coming to or from eastern Guinea. Our route passes by the town of Man and the border of Danané.

Please see the link below for more details:

<https://www.gov.uk/foreign-travel-advice/cote-d-ivoire>

Our trip is scheduled to pass through this region for one day. From all the advice given to us from the FCO and also from our local ground agents, we have decided to continue to travel through this area on this itinerary. The majority of the problems occur a large distance to the south of where we travel, and any alternative routes that avoid this area are not currently an option due to the condition of the roads.

It's important to understand that your travel insurance may be affected by travelling through this region, so please seek advice from your travel insurance company to check your coverage for travel in these regions. We recommend taking insurance through an insurer who will cover you for this travel. Should you choose to embark on your travel without appropriate travel insurance cover, please understand that you undertake this at your own personal risk.

Non-UK clients should check the travel advice of their own governments, as this may be different to the British FCO advice. Some relevant links are provided below:
