Please note the new ferry port has now moved to Alat a town south of Baku. Depending on ferry departures we may need to stay here the night instead of Baku limiting our time to explore the town of Baku.

Our itinerary in Baku and over the Caspian Sea must remain very flexible and is very much determined by sailing times of the local ferries. Please note that there is no regular schedule for the ferries, they are notoriously unpredictable, and information from the ferry operators regarding the sailing times constantly changes (or is non-existent) up until the point of departure. Maximum flexibility, open-mindedness and co-operation with your tour leaders are absolutely essential here!

Day 31 - Caspian Sea (23rd July 2020)

From Alat/ Baku, we will take the ferry across the Caspian Sea to Turkmenistan. The boat docks at the city of Turkmenbashi.

The ferry is a fantastic local experience, but please do not expect any luxury whatsoever! These ferries are budget vessels for the locals and cargo hauliers, and are not designed with tourists in mind. We must be prepared for very basic conditions and limited provisions on board.

Please also note that the time that the ferry takes to cross is also very unpredictable, as it is often forced to wait outside of the port in Turkmenbashi while they arrange the unloading of the cargo on the boat.

There will be seats on the ferry overnight. Generally cabins are not available for passengers.

Day 32 - Turkmenbashi (24th July 2020)

See the notes at the bottom for more details.

Another important note - please be aware that all itineraries in Kyrgyzstan are highly weather-dependent. The itinerary described in these notes are a statement of best intention, but we must approach each trip in Kyrgyzstan with a large degree of flexibility, as our leaders and local guides will have to 'play things by ear' according to the local conditions and weather. In low season certain routes become impossible and it may become far too cold to camp - in all cases there are fantastic and well-tried alternatives in place which means we can always run an excellent and comprehensive trip here, but please do not treat the exact details of the itinerary listed here as gospel - thanks for your understanding!

ITINERARY DISCLAIMER

The routes, activities and places visited described in these notes are intentions and are meant as a rough guide only. By their very nature, overland itineraries need to be flexible and the regions that we are travelling through are often unpredictable. We intend to follow the planned route but exact night stops and inclusions cannot be guaranteed and it sometimes happens that we decide to make a change to our planned itinerary. This may be for a variety of reasons; climatic, road or bureaucratic conditions may demand it. Changes to the itinerary may occur with little notice so please be prepared for modifications to your trip.

Drive Times

Drive times are listed in the day-to-day itinerary. These are the approximate number of hours that the vehicle will be in motion, and does not include any time taken for coffee or lunch stops, border crossings, photo stops, activities en route, comfort breaks, shopping stops, toilet stops, etc. The times given are approximate estimates only and whilst given with the best of intentions, the drive times are heavily dependent on traffic, road conditions, weather, police roadblocks, and many other factors.

Accommodation and Meals Included

The type of accommodation and included meals are listed for each day of the itinerary. These listings show our intention and on most departures the listings will be accurate. However due to the flexible nature of overland itineraries, climatic, bureaucratic or road conditions may demand changes to our listed intentions or groups may simply decide to amend the plans from time to time.

Optional Activities

A selection of optional activities is listed in the day-to-day itinerary. This list is designed to be a helpful guide as to what is commonly available in each location, and is neither an exhaustive list, a guarantee that the activity is available, or an endorsement or recommendation. Certain activities may not be available on your particular visit and it may not be possible to do all the activities listed in the time available at each destination. It is recommended to give yourself extra time in your joining or ending city if you would like to participate in some optional activities there. Prices listed are for entrance only and do not include transport costs to and from the sites or local guides unless indicated. The prices are displayed according to our latest information and in the best faith, but prices do fluctuate due to exchange rates, season, numbers of participants, and simple increases from the operator, and therefore any prices listed are a guide only and cannot be guaranteed. If you partake in any optional activities, you do so at your own risk and it must be clearly understood that your participation is your own decision and does not form part of your contract with Dragoman. You may be required to sign/complete a waiver form or optional activity form for some optional activities. For more information around activity safety and insurance, please see the Essential Information document.

IMPORTANT NOTES

OVERLANDING LIFESTYLE

Dragoman was founded in 1981, and has had many years of experience of leading overland trips across 4 continents. Overlanding is all about sharing a great travelling experience with like-minded people. On your trip you'll travel in one of Dragoman's purpose-built iconic expedition vehicles on an off-the-beaten-track adventure along rugged roads, experiencing the sights, sounds and smells of the world up-close. Your journey will be overland, sometimes across vast distances, so some long days spent driving are inevitable - but these will be interspersed with breaks of a day or two at a destination or activity.

On an overland journey, you are more than just a passenger and everyone gets involved setting up camp - we supply the tent but it's up to you to pitch it! As part of your trip, you will be assigned a truck job which could be collecting firewood or water, luggage loading, organising food, stores, etc. Like all great adventures, the more you put in the more you'll get out! For more details of how an overlanding trip works, please see the Essential Information document.

SAFETY STANDARDS

We run adventure journeys in off the beaten track areas, which often have poor infrastructure. You should expect that some of these areas do not adhere to 'Western' safety standards. For more information, please see the Essential Information document

MEDICAL ASSISTANCE IN REMOTE AREAS

We will be travelling to areas in remote locations where medical assistance will not be available, and communications may be sparse. We do not carry satellite phones on our regular trips. Therefore, if you have a medical condition such as a heart condition that would put you at risk, we would suggest that this is not the trip for you. Also, please be aware that should an emergency occur, there is likely to be a considerable delay in accessing medical care, and by joining our trip you accept this risk.

VISAS, HEALTH, INSURANCE & MONEY

Before you travel there are vital things to consider such as:

- Any visas needed for your trip
- Any vaccinations needed (please consult your GP or travel clinic)
- Organising your local payment (the kitty)
- Buying travel insurance (insurance is compulsory to be allowed to join our trips)

For more information on these topics, please see the Essential Information Document.

ALTITUDE WARNING

Warning - this trip goes above 2800m.

Please note that this trip spends time above 2800 metres/9200 feet where it is possible for travellers to experience some adverse effects on your health due to the altitude, potentially including Acute Mountain Sickness (AMS), High Altitude Cerebral Edema (HACE) and High Altitude Pulmonary Edema (HAPE). Because of this it is very important that you make yourself aware of the cause and effects of travelling at altitude and monitor your health during this trip.

For further information please [download our AMS information sheet](#) or refer to the following website: www.high-altitude-medicine.com. If you are starting your trip in a destination above 2800m/9200ft we strongly advise reading this information prior to arrival. Your leader will also hand you a copy of the AMS information sheet during your trip as well as holding a short meeting prior to travelling to altitudes above 2800m/9200ft for the first time.

Some travel insurance companies will stipulate a maximum altitude limit. Please ensure that you are covered and if necessary pay the additional premium of extended cover.

EXPLORATORY TRIP WARNING - THIS IS A NEW TRIP FOR US!

Please note that all or part of this trip is a brand new itinerary, and is going through completely new areas for Dragoman. This is what we call an Exploratory trip, and it means that all the passengers on this trip will be the route's pioneers for the first season!

While we have thoroughly researched all aspects of this new route and put the itinerary together with the best of intentions, please note that your crew will be finding a lot of information out for us on the ground and will be playing a lot of things by ear. The itinerary may be altered in places where it becomes necessary and the drive times may differ significantly from the published estimates.

Most Exploratory trips will have slight or significant changes made to them after this first season, and frankly we would be very surprised if an Exploratory trip was to run perfectly to the published itinerary. Usually we find that this is rarely a problem but rather an exciting feature and that there are much more pleasant surprises in store than unpleasant ones. You will be immersing in to the camaraderie with your crew and fellow travellers and give you the fantastic opportunity to shape the trip as a group.

However, the warning is sincere and this trip must be viewed as Exploratory - if this concerns you or you would rather stick to a tried-and-tested itinerary, then we recommend that you wait a year or two until we have this itinerary perfected following operating it many times, or of course to consider one of the more established trips in our extensive portfolio.

There will be numerous challenges on this trip including border delays, visa and paperwork delays, potential re-routing at short notice, lack of western facilities, road closures and other obstacles and unforeseen issues.

There is a risk of cancellation if the FCO advise changes (as of now the route is safe to travel all the way through).

West and Central Africa will test everyone's patience due to potential issues with obtaining visas. This is likely to lead to long delays in places where there may not be much to do. It may also be necessary to fly over some places which would be at your own expense.

This trip will have a higher level of participation compared to our other Dragoman trips and you will be required to help out with setting up camps, cooking etc. The campsites are also likely to be basic for much of the trip along with a high number of bush camps.

This will be a challenging trip and you must be fit in order to participate. If you have a pre-existing medical condition or any medical concerns you should check with your doctor prior to travel that this would be a suitable trip for you. You should also be aware that in the event of accident or illness, access to medical centres will be limited.

On the flip side, we'll be visiting regions and areas very rarely seen by Western travellers. Meeting people who have perhaps never seen foreigners. Enjoying the chaotic and buzzing cultures of West and Central Africa. And of course, the immense satisfaction of completing a classic adventure that only a handful of people ever get the chance to complete.

VERY IMPORTANT NOTICE ABOUT MEDICATIONS IN CENTRAL ASIA

Please note that as of 2014 all medications containing **tramadol, codeine, temazepam, morphine, opiates or any containing similar constituent components** have been made illegal in Georgia, Azerbaijan, Turkmenistan and Uzbekistan. This includes many over-the-counter medicines that are commonly available elsewhere, such as Nurofen! Please see here for more information - <http://sambuh.com/procedure-psychootropic-substances.html>

It is very important that you do not bring any such medications as the customs officials will treat this as though you were trying to bring illegal narcotics into the country. The rules are strict; it does not matter if you are only transiting through, and it makes no difference if you have a prescription or a doctor's note. Please do not bring these medications to Central Asia under any circumstance. The consequences could be huge, not only for yourself but for the tour leaders, for Dragoman's future operation in the region and especially for our local agents and guides.

Please note that we cannot allow you to travel on a Central Asia trip if you refuse to dispose of such medicines or refuse to co-operate with the tour leaders if they need to inspect any personal medicines. Thank you for your understanding in this matter.

If you have any prescription medications that do not come under the above list, please bring the prescription along and declare the medicines on any customs declaration forms throughout your trip.

TURKEY NOTES

GEORGIA NOTES

AZERBAIJAN NOTES

ARMENIA NOTES

TURKMENISTAN NOTES

TURKMENISTAN NOTE

Please note that any additional accommodation in Turkmenistan must be booked through Dragoman due to the strict controls on foreigners in the country - it is essential that everyone is registered immediately upon their entry to Turkmenistan at accommodation booked by the agent on your visa Letter of Invitation, as such it is not possible to independently arrange your own accommodation here. It is also now compulsory for all passengers arriving into Turkmenistan through Ashgabat airport to be met on arrival by an official representative from our local supplier and have a confirmed transfer to their hotel. These transfers can be booked directly through your sales agent. If you do not have a confirmed transfer upon arrival you may be refused entry into Turkmenistan.

Due to strict Turkmenistan Laws, foreigners are not permitted to travel outside of Ashgabat without being accompanied by an official guide from a registered company. If travelling on a Dragoman Trip and you wish to explore Turkmenistan further any additional time must be booked through our registered supplier as a private tour and we must be notified at the time of booking as it is not possible to travel with 2 different company's in the same visit. Any Additional nights in Turkmenistan must also be booked at a registered hotel in Ashgabat.

Please also note that there are strict laws against tobacco products in Turkmenistan. Whilst it is not yet completely illegal to possess tobacco, it is strictly prohibited to smoke in any public place, is illegal to sell tobacco, and is illegal to import more than 2 small packs of cigarettes. Breaking these laws even slightly can lead to large fines and even detention in jail. To be safe, it is highly recommended to simply not bring any tobacco products into Turkmenistan and avoiding their use entirely until you have left the country. All the above also applies to vaping, e-cigarettes, etc. Your crew may insist on such material being disposed of before entering through the country on the overland truck, and your co-operation with this is both appreciated and expected.

UZBEKISTAN NOTES

KYRGYZSTAN NOTES

KYRGYZSTAN NOTE

We will be travelling through high remote mountains and the itinerary may have to vary somewhat due to weather or road conditions. When it is too cold to visit Song K l Lake or camp (May to mid June, October and November) we will run a alternative itinerary which may include a yurt stay on the southern shore of Lake Issyk-Kul, a night at a homestay or a night at a hot spring development know as Altyn Arashan.

We will need to remain flexible with these itineraries as temperatures can vary.

In general, the summer months (June, July and August) can be warm during the day but temperatures can drop to 0°C at night. For this reason we recommend taking warm clothes and a warm sleeping bag for ALL trips in Kyrgyzstan. For trips that run during the colder months (May to mid June and September to October/November) we recommend you bring extra warm clothing and an all-season sleeping bag as it is not uncommon for temperatures to fall to -10C, sometimes colder.

We recommend you check local average weather conditions for each country you will be travelling to in order to properly prepare for your trip.
