Today we will have an early start to catch the train to the small town of Aguas Calientes. From there, we will take a bus up the winding mountainside to the legendary ruined city of Machu Picchu - one of the world's most iconic sights! We have a guided tour with our expert local guide and there will be plenty of free time to explore this magical place.

In the afternoon we will head back to Ollantaytambo and then on to Cuzco, where we return to our joining hotel at the end of a long but phenomenal day!

Leaving Wiñay Wayna, we descend gradually further through the highland jungle to our destination - Intupunku (the "Sun Gate") leading into Machu Picchu. Arriving at daybreak, we catch our first breathtaking view of this historical wonder. As with the Wild Andes Trek, our local guide will show us the most important constructions as well as explain the history and the mythology of this magnificent place. There is also some free time to explore the ruins further at your own pace or just chill out and watch the hummingbirds or vizcachua. In the afternoon we head back down to Aguas Calientes and take the train back to Ollantaytambo and return to Cuzco for a well-deserved rest.

Approximate walking time: 2hrs, Distance: 4kms, Meals provided: Breakfast, Snacks

Option 3 - Train Package

After an early breakfast and walk to the train station, your stunning 2 hour train ride to Aguas Calientes begins. The journey takes you through several different micro-climates, past Inca terraces, lookout posts, ancient river bank reinforcements and small towns. You will get a glimpse of different temples and the beautiful Mount Veronica (5,750m). Passing through 8 tunnels, the train journey finally comes to an end in the busy pueblo, Aguas Calientes. From here you take a local bus that winds up the mountainside for about 30 minutes until you arrive at the entrance to Machu Picchu (2,400m), the awe inspiring 'Lost City of the Incas'. The guide will take you around the immense, mystical ruins for about 2 hours to 2 hours 30 minutes, explaining the rich history of the ancient site. Afterwards, you will have time to explore on your own before returning down the mountain to Aguas Calientes.

In the afternoon you will catch a train from Aguas Calientes to Ollantaytambo and a private transfer will take you back to your hotel in Cuzco.

By their very nature, overland itineraries need to be flexible and the regions that we are travelling through are often unpredictable. We intend to follow the planned route but exact night stops and inclusions cannot be guaranteed and it sometimes happens that we decide to make a change to our planned itinerary. This may be for a variety of reasons; climatic, road or bureaucratic conditions may demand it. Changes to the itinerary may occur with little notice so please be prepared for modifications to your trip.

Drive Times

Drive times are listed in the day-to-day itinerary. These are the approximate number of hours that the vehicle will be in motion, and does not include any time taken for coffee or lunch stops, border crossings, photo stops, activities en route, comfort breaks, shopping stops, toilet stops, etc. The times given are approximate estimates only and whilst given with the best of intentions, the drive times are heavily dependent on traffic, road conditions, weather, police roadblocks, and many other factors.

Accommodation and Meals Included

The type of accommodation and included meals are listed for each day of the itinerary. These listings show our intention and on most departures the listings will be accurate. However due to the flexible nature of overland itineraries, climatic, bureaucratic or road conditions may demand changes to our listed intentions or groups may simply decide to amend the plans from time to time.

A selection of optional activities is listed in the day-to-day itinerary. This list is designed to be a helpful guide as to what is commonly available in each location, and is neither an exhaustive list, a guarantee that the activity is available, or an endorsement or recommendation. Certain activities may not be available on your particular visit and it may not be possible to do all the activities listed in the time available at each destination. It is recommended to give yourself extra time in your joining or ending city if you would like to participate in some optional activities there. Prices listed are for entrance only and do not include transport costs to and from the sites or local guides unless indicated. The prices are displayed according to our latest information and in the best faith, but prices do fluctuate due to exchange rates, season, numbers of participants, and simple increases from the operator, and therefore any prices listed are a guide only and cannot be guaranteed. If you partake in any optional activities, you do so at your own risk and it must be clearly understood that your participation is your own decision and does not form part of your contract with Dragoman. IMPORTANT NOTES

OVERLANDING LIFESTYLE

Dragoman was founded in 1981, and has had many years of experience of leading overland trips across 4 continents. Overlanding is all about sharing a great travelling experience with like-minded people. On your trip you'll travel in one of Dragoman's purpose-built iconic expedition vehicles on an off-the-beaten-track adventure along rugged roads, experiencing the sights, sounds and smells of the world up-close. Your journey will be overland, sometimes across vast distances, so some long days spent driving are inevitable - but these will be interspersed with breaks of a day or two at a destination or activity.

On an overland journey, you are more than just a passenger and everyone gets involved setting up camp - we supply the tent but it's up to you to pitch it! As part of your trip, you will be assigned a truck job which could be collecting firewood or water, luggage loading, organising food, stores, etc. Like all great adventures, the more you put in the more you'll get out! For more details of how an overlanding trip works, please see the Essential Information document.

SAFETY STANDARDS

We run adventure journeys in off the beaten track areas, which often have poor infrastructure. You should expect that some of these areas do not adhere to 'Western' safety standards. For more information, please see the Essential Information document

MEDICAL ASSISTANCE IN REMOTE AREAS

We will be travelling to areas in remote locations where medical assistance will not be available, and communications may be sparse. We do not carry satellite phones on our regular trips. Therefore, if you have a medical condition such as a heart condition that would put you at risk, we would suggest that this is not the trip for you. Also, please be aware that should an emergency occur, there is likely to be a considerable delay in accessing medical care, and by joining our trip you accept this risk.

VISAS, HEALTH, INSURANCE & MONEY

Before you travel there are vital things to consider such as:

- Any visas needed for your trip
- Any vaccinations needed (please consult your GP or travel clinic)
- Organising your local payment (the kitty)
- Buying travel insurance (insurance is compulsory to be allowed to join our trips)

For more information on these topics, please see the Essential Information Document.

ALTITUDE WARNING

Warning - this trip goes above 2800m.

Please note that this trip spends time above 2800 metres/9200 feet where it is possible for travellers to experience some adverse effects on your health due to the altitude, potentially including Acute Mountain Sickness (AMS), High Altitude Cerebral Edema (HACE) and High Altitude Pulmonary Edema (HAPE). Because of this it is very important that you make yourself aware of the cause and effects of travelling at altitude and monitor your health during this trip.

For further information please [download our AMS information sheet](#) or refer to the following website: www.high-altitude-medicine.com. If you are starting your trip in a destination above 2800m/9200ft we strongly advise reading this information prior to arrival. Your leader will also hand you a copy of the AMS information sheet during your trip as well as holding a short meeting prior to travelling to altitudes above 2800m/9200ft for the first time.

Some travel insurance companies will stipulate a maximum altitude limit. Please ensure that you are covered and if necessary pay the additional premium of extended cover.

HIGH ALTIPLANO NOTE

Because of its nature, this itinerary may vary - occasionally the road conditions are too adverse during the rainy season (January-February) to make the crossing from Uyuni to Argentina, and we may have to change the route.

During the winter months in Argentina and Bolivia, we will spend a higher proportion of nights in hotels and less time camping. Kitty may be higher than expected and you should allow extra funds for this and personal funds for more meals out. There may well be snow and you should be aware that it can get very cold at night. Please ensure that you bring a decent sleeping bag and adequate clothes, including thermals.

We will also be travelling to very high altitudes (over 5,000m if you take the crossing from Uyuni to Argentina or vice versa), so please be aware of the effects of altitude sickness.

THE WILD ANDES TREK, CLASSIC INCA TREK AND TRAIN PACKAGE - MORE INFORMATION

THE WILD ANDES TREK

Dragoman first developed and launched their pioneering **Community Trek**, the **Tarpuy Yachay project**, in 2006 - a fantastic, award-winning alternative to the Classic Inca Trek, the project also helped several educational and sustainable development initiatives in the Andean villages of Quishuarani and Cuncani.

After almost a decade of this successful venture, we decided that our support could be better used in a new area. In 2013, Dragoman developed an exclusive, brand new Community Trek to take our passengers really off the beaten track, to enjoy pure, unspoilt Andean trails, explore remote Inca ruins, whilst at the same time finding new ways to 'give back' to the people of the area. We have done this by funding the release of alpaca herds, offering training to local people in animal husbandry and weaving to provide a source of income. Another aspect of this project has been reforestation, which is crucial for preventing landslides to protect the local area.

In 2016, we decided to rename our Community Trek "the **Wild Andes Trek**", because we feel it better represents the trek we run. However, nothing has changed but the name - Dragoman's firm commitment to genuine, responsible tourism continues as it always has, so rest assured that whilst you take to the mountains your money is supporting local people. The Wild Andes Trek follows the same route that we have been following since 2013, which boasts some of Peru's most spectacular and remote mountain scenery.

THE CLASSIC TREK

Of course if you prefer, there is also the option to complete the Classic Inca Trek, so called, because the trek follows the old royal route to Machu Picchu. Over the course of four days you will trek over 40km through farmland, cloud forest and mountain scenery, the trek culminates on the final morning where you will rise early to trek to Intipunku, better known as the Sun Gate, where you will catch your first glimpse of Machu Picchu. Here we can take our time to watch the mist clear over the Citadel, and walk down to the site and have some time to enjoy it before we have our guided tour.

THE TRAIN PACKAGE

For those of you who would prefer to take Machu Picchu at a gentler pace, we offer our non-trekking, Train Package. As part of this package you will enjoy a guided tour of Sacsayhuaman and the Sacred Valley, followed by 2 days to relax or explore Cuzco at your own pace. Finally you will transfer to Ollantaytambo where you will spend the night in a lovely hotel and have time to explore the fascinating and impressive fortress here. On your final morning you will take the train to Aguas Calientes, and then onwards to Machu Picchu for your tour and free time to explore.

GENERAL

Whichever option you choose, you are sure to have an unforgettable experience at one of the most impressive and iconic World Heritage Sites.

The kitty has been budgeted to include the cost of the Classic Inca Trek as this is the most expensive option. This means that you will receive a small kitty refund if you do the Wild Andes Trek, and a substantial kitty refund if you do the Train Package.

All three trekking groups will return to Cuzco by train and private transfer. Please note that during high season or in the case of late bookings, some trekkers may be booked onto a later train. You will always have a Guide to accompany you back to Cuzco but you should be prepared for a later arrival.

PLEASE NOTE: You must tell us at the time of booking if you want to book the Classic Inca Trek or the Train Package. If you do not tell us this you will automatically be booked onto the Wild Andes Trek.

In order to book the relevant permits and tickets, it is vital that you provide the following information at the time of booking:

- Full name (EXACTLY as it appears in the passport you are travelling on)
- Date of Birth
- Gender
- Passport Number
- Passport Expiry Date

Please be sure that all the details are correct and are for the same passport on which you will travel to Peru - any changes made after your application is submitted may not be granted and will involve fees being charged to you. Changes to name and nationality after your application is submitted are absolutely not allowed, so please ensure no changes of this sort will be needed.

There is an overlap for the Inca treks. This means a group starting a trip in Lima or La Paz will do the Inca trek at the same time as a group starting their trip in Cuzco. This means there could be several groups on the Inca trek at the same time.

BENEFITS OF THE WILD ANDES TREK

- Protecting the environment - reducing the number of people travelling on the Classic route to minimise the impact on these ancient paths.
- Responsible Tourism - providing funding for reforestation of the area, to reduce landslides.
- Sustainable - providing funding to introduce Alpacas and training in animal husbandry and weaving to create a sustainable source of income from the animals
- Trekking virtually deserted routes, with no other tourists - so you are free to enjoy the surroundings without feeling rushed or crowded
- Arriving to Machu Picchu well rested and refreshed after a comfortable night in a hotel in Ollantaytambo - ready to get the most out of the visit to this unforgettable site. (NB we do not trek into Machu Picchu, we arrive by train and bus from Ollantaytambo)
- Time to explore the citadel of Machu Picchu, many group members chose to trek up to the Sun Gate to see the famous view, after their tour.
- Trekking a unique route in the Andes

BENEFITS OF THE CLASSIC INCA TREK

- The original Royal route is still the most popular trek because of its history (trekking is limited to 500 people per day departing on the trek, which still can feel crowded at times)
- The Classic Trek is not quite as challenging as the Wild Andes Trek as the passes are not quite as high. That said, it is still a pretty tough and you will need to be reasonably fit.
- There are fantastic views of varied terrain from cloud forest to mountains.

- The Classic Trek culminates with a morning trek to the Sun Gate, where you will experience your first glimpse of Machu Picchu (this is the only trek to do this).

TREKKING FITNESS

Trekking at altitude should not be undertaken lightly. Regardless of which trek you choose, you need to be in good health with good physical fitness to enjoy the experience. It is not about speed; trekking slowly is far better at altitude but you do need to have the stamina to keep going and altitude can have a negative impact on your general condition and physical performance. For your own safety you must accept that it is at the complete discretion of the professional trekking guides to decide if you are not fit enough to trek, whether it be before or during the trek. The Wild Andes Trek reaches 4,700 m in altitude when we cross one of the passes. The trail can be steep and rocky but has few steps. The Classic Inca Trek has lots of steps and the highest pass is Dead Woman's Pass at 4,200 m. If you are in any doubt about your suitability to trek please consult your local doctor. We recommend arriving in Cuzco at least 24 hours prior to your trip starting (if you are joining in Cuzco). It is also important that you inform your trekking guides and Tour Leaders of any pre-existing medical issues, as well as any medications you may be taking, especially medication for altitude sickness.

TREKKING - WHAT TO BRING

Tents, sleeping mats and all food and drinking water during the trek are provided, as well as duffle bags for your personal gear that you don't need to access during the trekking hours (such as sleeping bags and extra clothes). On the Wild Andes Trek your duffle bag will be carried by pack animals and on the Classic Trek your duffle bag will be carried by porters. Please note that there is therefore a strict weight limit of 6 kgs per bag. You will have to carry your own daypack with any items you need during the day.

You will need to be prepared for 4 seasons' weather in one day. Basically it will be cold after dark and in the mornings. During the night you will need to layer up with thermals and warm socks. In the morning when you've walked for a little while you will warm up and gradually strip off. Think layers! Wild Andes trekkers, you should also bring a set of clean clothes for the night you will spend in Ollantaytambo where you have hot showers and the evening meal out in a restaurant.

Some very useful things to bring:

- Daypack (less than 30 litres)
- Waterproof bag(s) to keep your stuff dry (bin liners or similar are fine)
- Warm sleeping bag (also available to rent from our local supplier)
- Sleeping bag liner (for extra insulation)

RESPONSIBLE TREKKING

Frostbite, altitude sickness and even death can be the cost for the guides and trekking staff. Tourism Concern has a campaign aimed to put a stop to the abuse of trekking staff's human rights. Equally pack animals suffer abuse and mistreatment. Mountain trekking is exhilarating and challenging, but how could many of us do it without the assistance of trekking staff? Once they have started a trek, trekkers are often horrified by the reality of the working conditions for the staff.

The prices that tour operators charge for trekking does vary enormously, mainly due to the rates of pay and conditions that the trekking crew receive. It is easy to book a trip based purely on price, but in the case of trips involving Inca trails, this will probably be because the tour operator is using local suppliers without regard to the treatment of porters and guides.

In keeping with our Responsible Tourism Policies, Dragoman has a strict Suppliers' Policy, which also covers our trekking partners. We follow Tourism Concern's policies on trekking companies and the way that guides, porters or animals are looked after. We therefore use a local Cuzco-based trekking company called Andina Travel to run all our Inca trails trekking trips. They have an excellent trekking record and good, knowledgeable guides. They have been at the cutting edge of developing codes of responsible tourism practice and involving the local Quechuan communities in the development of their various treks. They supply us with evidence of their code of practice concerning their guides, staff and pack animals.

Please bear this in mind when deciding which travel company you will travel with. Remember many of the trekking organisations, as well as many overseas tour operators who use these suppliers, are happy to promote low cost trips, even if it is at the expense of the welfare of the guides and porters that they use.

COMMUNITIES SUPPORTED

The communities that we support are remote Andean farming communities with traditions dating back to the Incas. They are primarily Quechua speaking, with some Spanish, and little contact with the general population. Their daily lives consist of potato cultivation, weaving, and the herding of llamas, alpacas, and sheep. Considered by the Peruvian government to be living in extreme poverty, they often face malnutrition, severely cold weather, poor hygienic conditions, and little medical or health assistance. Villagers live in thatched-roof stone huts and cook with firewood. Because of the disproportionate supply and demand of native trees and bush, there is a great need for an effective reforestation project in the area. Since 2006, Dragoman has worked with Ecoam (who helps us with our reforestation project) and thanks to the support from Dragoman and our passengers, the area we used to visit around Quishuarani, Cuncani and part of the mountain range of Lares has been declared a Private Landscape Reserve.

The fairly recent introduction of tourism to the region has brought some needed assistance and economic development to the communities, but there is still much more to do. Our local trekking operator working within the guidelines of sustainable tourism has met with the communities and discussed the pros and cons of tourism in the area. Together they have established still unofficial guidelines for trekking and tourism through the Cordillera such as: established campsites to avoid contamination of community areas, use of community animals and personnel on treks, training of community members through workshops on camp maintenance, hygiene, client service to enhance their economic viability, maintenance of camp trails, camp sites, and environmental conservation. Many agencies respect these guidelines, but because making things official often brings on unwanted government intervention, they are an informal agreement between the communities, agencies, and tourists.
